Hydrobiologia

The International Journal on Limnology and Marine Sciences

Volumes 475/476, 15 May 2002

Theme

Nutrients and Eutrophication in Estuaries and Coastal Waters

Proceedings of the 31st Symposium of the Estuarine and Coastal Sciences Association (ECSA), held in Bilbao, Spain, 3–7 July 2000

Guest Editors

Emma Orive, Mike Elliott & Victor N. de Jonge

Preface
Emma Orive, Mike Elliott, Victor de Jonge ix–x

INTRODUCTORY PAPER

Causes, historical development, effects and future challenges of a common environmental problem: eutrophication
Victor N. de Jonge, Mike Elliott, Emma Orive 1–19

HYDRODYNAMIC CONTROL OF CHEMICAL AND BIOLOGICAL PROCESSES

Modern foraminiferal record of alternating open and restricted environmental conditions in the Santo André lagoon, SW Portugal
Alejandro Cearreta, María Alday, M. Conceição Freitas, Cesar Andrade, Anabela Cruces 21–27

Nutrient inputs to the Irish Sea: temporal and spatial perspectives
K. Kennington, A. Wither, T.M. Shammon, P. Jones, R.G. Hartnoll 29–38

Nutrient-enhanced productivity in the northern Gulf of Mexico: past, present and future
Nancy N. Rabalais, R. Eugene Turner, Quay Dortch, Dubravko Justic, Victor J. Bierman Jr., William J. Wiseman Jr. 39–63

Potential modification of the fluxes of nitrogen from the Humber Estuary catchment (U.K.) to the North Sea in response to changing agricultural inputs and climate patterns
Alan D. Tappin, John R.W. Harris, Reginald J. Uncles, David Boorman 65–77

METHODS AND APPROACHES TO ASSESS AND CONTROL ESTUARINE AND COASTAL EUTROPHICATION

Estimation of ecological exergy using weighing parameters determined from DNA contents of organisms – a case study
Júlio C. Fonseca, Miguel A. Pardal, Ulisses M. Azeiteiro, João C. Marques 79–90

Trophic status based on nutrient concentration scales and primary producers community of tropical coastal lagoons influenced by groundwater discharges
Jorge A. Herrera-Silveira, Israel Medina-Gomez, Reyna Colli 91–98

'Ferry-Boxes' and data stations for improved monitoring and resolution of eutrophication-related processes: application in Southampton Water UK, a temperate latitude hypernutrified estuary
S.E. Holley, D.J. Hydes 99–110

Identifying 'hot spots' of biological and anthropogenic activity in two Irish estuaries using means and frequencies
M.P. Johnson, M. Hartnett, L.M. Collier, M.J. Costello 111–123

Distribution patterns of nutrients and symptoms of eutrophication in the Rio de la Plata River Estuary System
G.J. Nagy, M. Gómez-Erache, C.H. López, A.C. Perdomo 125–139

Baseline study of soft bottom benthic assemblages in the Bay of Santander (Gulf of Biscay)
A. Puente, J.A. Juanes, G. García-Castrillo, C. Álvarez, J.A. Revilla, J.L. Gil 141–149

CHEMICAL FLUXES BETWEEN AND WITHIN ECOSYSTEMS

Nutrient (N, P, Si) fluxes between marine sediments and water column in coastal and open Adriatic
A. Baric, G. Kuspilic, S. Matijevic 151–159

Nitrogen fluxes and budget seasonality in the Ria Vigo (NW Iberian Peninsula)
Ricardo Prego 161–171

The winter and summer partitioning of dissolved nitrogen and phosphorus. Observations across the Irish Sea during 1997 and 1998
T.M. Shammon, R.G. Hartnoll 173–184

Long-term changes in Wadden Sea nutrient cycles: importance of organic matter import from the North Sea
J.E.E. van Beusekom, V.N. de Jonge 185–194

Particulate inputs to Dublin Bay and to the South Lagoon, Bull Island
James G. Wilson, Mary Brennan, Anne Murray 195–204

MODELLING OF ESTUARIES AND COASTAL WATERS

A model for predicting the temporal evolution of dissolved oxygen concentration in shallow estuaries
A. García, J.A. Revilla, R. Medina, C. Álvarez, J.A. Juanes 205–211

Modelling the faecal coliform concentrations in the Bilbao estuary
Jose Mª García-Barcina, Mikel Oteiza, Alejandro de la Sota 213–219

Simulating vertical water mixing in homogeneous estuaries: the SADO Estuary case
F. Martins, P. Leitão, R. Neves 221–227

Mathematical modelling as a management tool for water quality control of the tropical Beberibe estuary, NE Brazil
Cesar H.A. Ribeiro, Moacyr Araújo 229–237

The prediction of nutrients into estuaries and their subsequent behaviour: application to the Tamar and comparison with the Tweed, U.K.
R.J. Uncles, A.I. Fraser, D. Butterfield, P. Johnes, T.R. Harrod 239–250

PELAGIC AND BENTHIC METABOLISM AND TROPHIC PATHWAYS

Seasonal change in the proportion of bacterial and phytoplankton production along a salinity gradient in a shallow estuary
M.A. Almeida, M.A. Cunha, F. Alcântara 251–262

The planktonic food web structure of a temperate zone estuary, and its alteration due to eutrophication
G.M. Capriulo, G. Smith, R. Troy, G.H. Wikfors, J. Pellet, C. Yarish 263–333

The feeding strategy of the dunlin (*Calidris alpina* L.) in artificial and non-artificial habitats at Ria de Aveiro, Portugal
A. Luís, J.D. Goss-Custard, M.H. Moreira 335–343

Short-term variations in the physiological state of phytoplankton in a shallow temperate estuary
Iosu Madariaga 345–358

Evidence of a planktonic food web response to changes in nutrient input dynamics in the Mar Menor coastal lagoon, Spain
A. Pérez-Ruzafa, J. Gilabert, J.M. Gutiérrez, A.I. Fernández, C. Marcos, S. Sabah 359–369

MANAGEMENT AND RESTORATION OF COASTAL SYSTEMS

Some ecological properties in relation to eutrophication in the Baltic Sea
E. Bonsdorff, C. Rönnberg, K. Aarnio 371–377

Evaluation of the nutrient inputs to a coastal lagoon: the case of the Ria de Aveiro, Portugal
J. Figueiredo da Silva, R. W. Duck, T. S. Hopkins, M. Rodrigues 379–385

Evaluation of a eutrophic coastal lagoon ecosystem from the study of bottom sediments
F. Frascari, G. Matteucci, P. Giordano 387–401

Changes in point and non-point sources phosphorus loads in the Thau catchment over 25 years (Mediterranean Sea – France)
I. La Jeunesse, J.M. Deslous-Paoli, M.C. Ximénès, J.P. Cheylan, C. Mende, C. Borrero, L. Scheyer 403–411

Nutrients related to the hydrologic regime in the coastal lagoons of Viladecans (NE Spain)
Joan Ramon Lucena, Josep Hurtado, Francisco A. Comín 413–422

Filling of a wetland (Seine estuary, France): natural eutrophication or anthropogenic process? A sedimentological and geochemical study of wetland organic sediments
V. Mesnage, S. Bonneville, B. Laignel, D. Lefebvre, J.-P. Dupont, D. Mikes 423–435

RESPONSE OF PELAGIC AND BENTHIC ORGANISMS TO EUTROPHICATION

The effects of macroalgal cover on the spatial distribution of macrobenthic invertebrates: the effect of macroalgal morphology
S.G. Bolam, T.F. Fernandes 437–448

Importance of discards of a beam trawl fishery as input of organic matter into nursery areas within the Tagus estuary
Henrique N. Cabral, Célia M. Teixeira, Rita Gamito, Maria José Costa 449–455

The intertidal soft-bottom infaunal macrobenthos in three Basque estuaries (Gulf of Biscay): a feeding guild approach
L. García-Arberas, A. Rallo 457–468

'*In vitro*' and '*in situ*' decomposition of nuisance macroalgae *Cladophora glomerata* and *Pilayella littoralis*
Tiina Paalme, Henn Kukk, Jonne Kotta, Helen Orav 469–476

Late Holocene pollution in the Gernika estuary (southern Bay of Biscay) evidenced by the study of Foraminifera and Ostracoda
A. Pascual, J. Rodriguez-Lazaro, O. Weber, J.M. Jouanneau 477–491

Planktonic chlorophyll *a* and eutrophication in two Mediterranean littoral systems (Mallorca Island, Spain)
M. Puigserver, G. Ramon, G. Moyà, A. Martínez-Taberner 493–504

Physiological response of *Spisula subtruncata* (da Costa, 1778) to different seston quantity and quality
Jose L. Rueda, Aad C. Smaal 505–511

MANAGEMENT ISSUES

The management of nutrients and potential eutrophication in estuaries and other restricted water bodies
M. Elliott, V.N. de Jonge 513–524

Author index 525–526
